

Small and Medium Business Program

Your path to energy savings starts here

Running a business is enough work on its own – your energy efficiency goals shouldn't add to the load. Here at DTE, we want to make it easy to achieve greater energy efficiency without the heavy upfront costs.

That's where the Small and Medium Business Program comes in. From free products to personalized energy-savings plans, we do the heavy lifting so that you can focus on what's important – running your business.

As a participant, you'll get access to:

- An energy assessment to identify energy-saving opportunities at no cost.
- Complimentary product upgrades like LED bulbs, advanced power strips and more.
- A trusted contractor network.
- A custom energy report with recommendations tailored to your business.
- Rebates on your energy efficiency upgrades.
